Problem quickname: 6921

1)

What type of angle is shown? Mark the correct answer!

a)

- obtuse angle
- acute angle
- right angle

b)

- obtuse angle
- acute angle
- straight angle

c)

- obtuse angle
- straight angle
- right angle

d)

- obtuse angle
- right angle
- acute angle

2)

What type of angle is shown? Mark the correct answer!

a)

- right angle
- straight angle
- acute angle

b)

- straight angle
- right angle
- obtuse angle

c)

- obtuse angle
- acute angle
- right angle

d)

- obtuse angle
- acute angle
- right angle

3)

What type of angle is shown? Mark the correct answer!

a)

- straight angle
- obtuse angle
- reflex angle

b)

- obtuse angle
- reflex angle
- right angle

c)

- right angle
- straight angle
- reflex angle

d)

- straight angle
- acute angle
- obtuse angle

4)

What type of angle is shown? Mark the correct answer!

a)

- obtuse angle
- reflex angle
- right angle

b)

- full angle
- reflex angle
- null angle

c)

- obtuse angle
- acute angle
- full angle

d)

- reflex angle
- straight angle
- right angle

Good Luck!
