Problem quickname: 3914

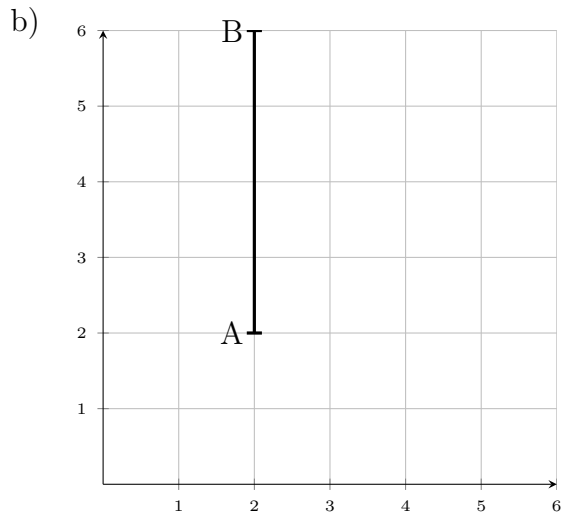

1)

Measure the length of the line segment exactly to the millimetre.

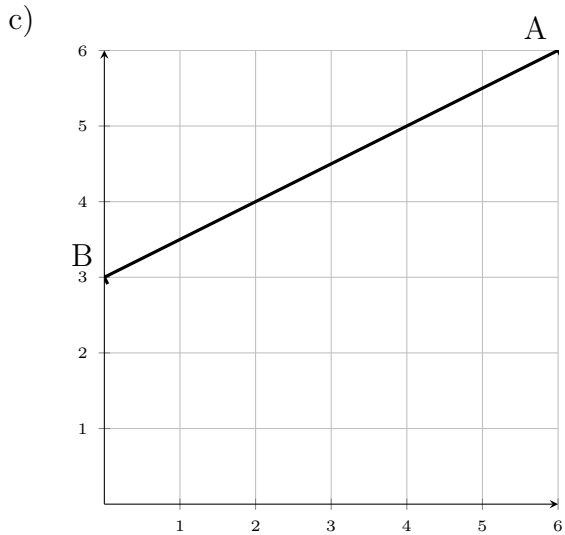

Quick:
3914

Length of line segment: 6cm

Length of line segment: 4cm

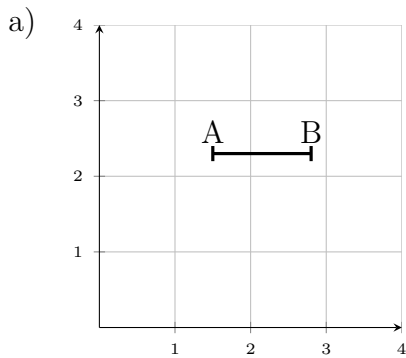

Length of line segment: 6.7cm

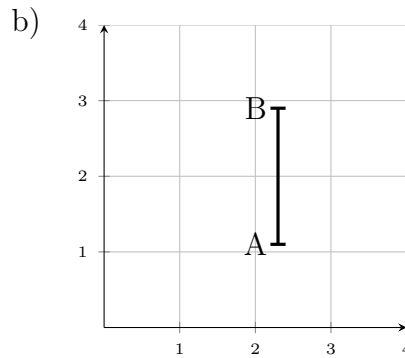

2)

Measure the length of the line segment exactly to the millimetre.

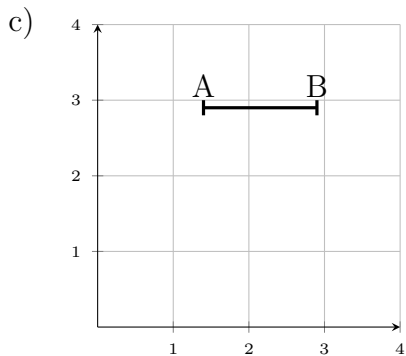

Quick:
3914

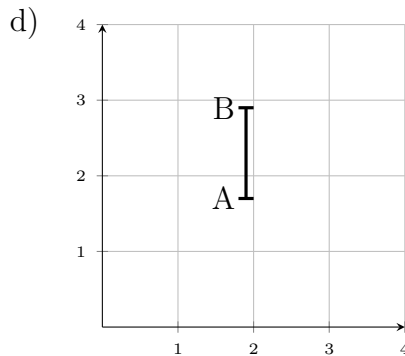

Length of line segment: 1.3cm

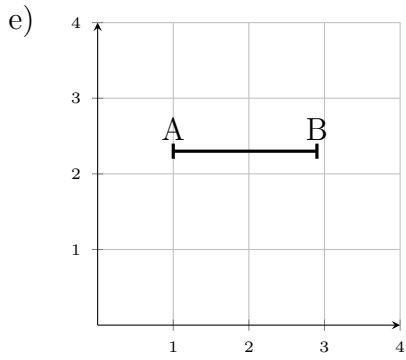

Length of line segment: 1.8cm

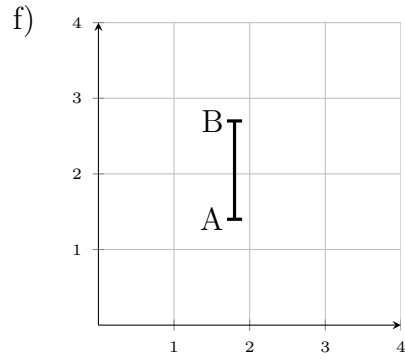

Length of line segment: 1.5cm

Length of line segment: 1.2cm

Length of line segment: 1.9cm

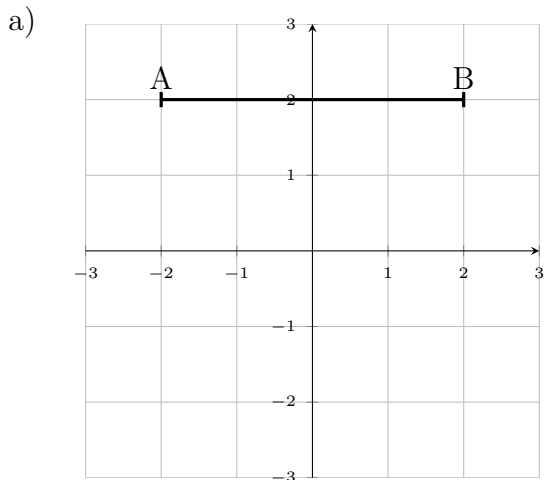

Length of line segment: 1.3cm

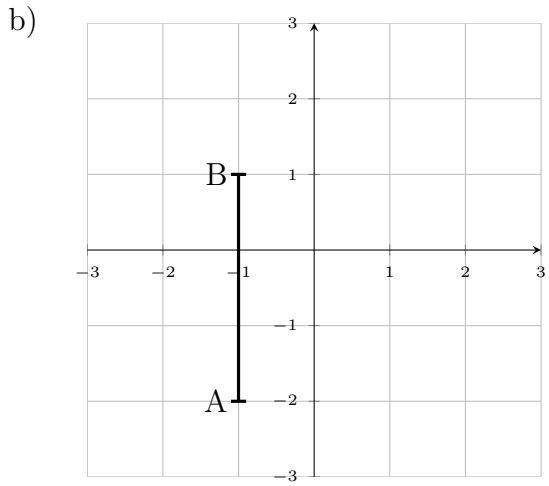

3)

Measure the length of the line segment exactly to the millimetre.

Quick:
3914

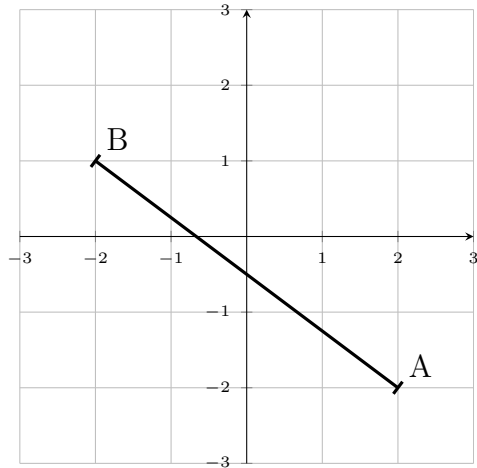

Length of line segment: 4cm

Length of line segment: 3cm

c)

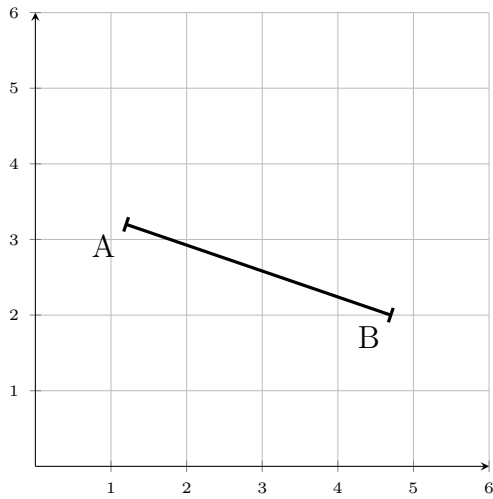

Length of line segment: 5cm

4)

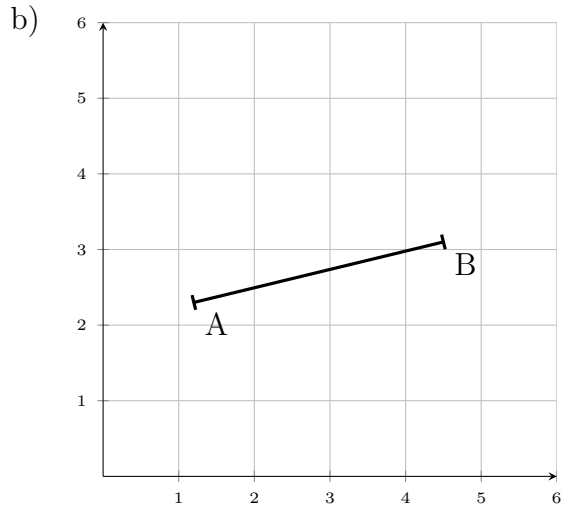

Measure the length of the line segment exactly to the millimetre.

Quick:
3914

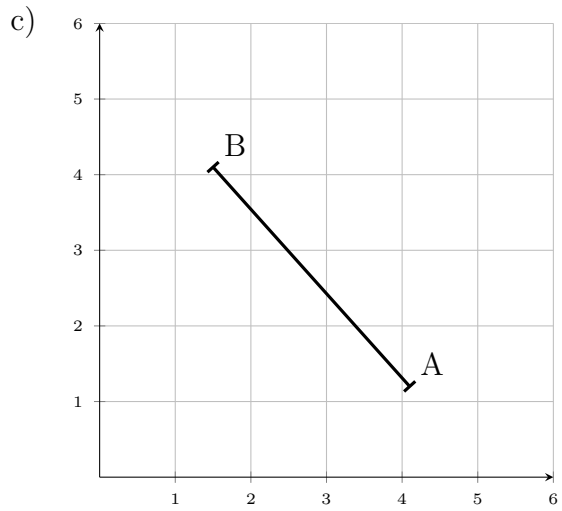

a)

Length of line segment: 3.7cm

Length of line segment: 3.4cm

Length of line segment: 3.9cm

Good Luck!
